# INTERNATIONAL CERTIFIED WELDER

- ISO-9606 WELDING TRAINING WITH CERTIFICATE

## WELDING PROCESSES

- **111 SMAW** – SHIELDED METAL ARC WELDING
- **135 MAG** – METAL ACTIVE GAS WELDING

## COURSE CONTENT

### Welding Preparation

- Drawing -WPS - Cutting & Tacking - Measurement

### Welding Execution

- Setting the Machine - Different Position - Sequence

### Welding Examination

- Evaluation of Welding (ISO 5817 -C) - NDT & DT Testing

### Health & Safety

## FULL TIME

**DURATION:** (Three) 3 Months - 360hrs

**TUITION FEES: KSH.220,000/-**

## PART TIME:

Evening Classes Mon-Fri – 6:00pm - 9:00pm

Saturday Classes – 8.30am - 2.30pm

**TUITION  
FEE:**

**Kshs. 250,000** (Beginners with no experience in welding) - 360hrs

**Ksh 180,000** (Welders seeking ISO 9606 certification - 240hrs)

**Qualification:** Minimum 3 years Professional Welding experience in the Industry ( SMAW & MAG/MIG Welding.)

**VENUE:** Morendat Institute of Oil & Gas, Nairobi Campus, Nanyuki Road

**For more details, course dates and registration please visit our website: [miog.ac.ke](http://miog.ac.ke)**

## DIPLOMA AND CERTIFICATE COURSES

Morendat Institute of Oil and Gas National Polytechnic is a Kenya Pipeline-owned training institute established to build human resource capacity in oil and gas.

The institute offers Diploma (three-year) and Certificate (two-year) competency-based programs to school leavers and professionals seeking to enhance skills in the oil and gas sector.

It is registered by the Technical and Vocational Education and Training (TVETA). Its programs are examined by the Technical and Vocational Training Authority Curriculum Development Assessment and Certification Council (TVET/CDACC).

### DIPLOMA COURSES

COURSE	ENTRY REQS.	VENUE	CERT.	FEES (KSHS)
Diploma in Oil & Gas Economics	Mean Grade C-	MIOG - Nairobi & Eldoret	MMUST	71,700/- per year
Diploma in Petroleum Management	Mean Grade C-	MIOG - Nairobi & Eldoret	MMUST

# FIRE MARSHAL COURSE

## INTRODUCTION

To ensure orderly evacuation of everyone in your building in the event of a fire incident, it is essential that you have a designated fire marshal or fire marshals who are fully aware of their responsibilities. This is true regardless of the environment you are in, be it a small office space or a large warehouse facility.

Training for fire marshals is essential for providing them with life-saving knowledge that they can use in the workplace, at home, or anywhere a fire breakout occurs. Learners comprehend the causes, effects, and impacts of fire and how to avoid their spread. They also implement appropriate emergency procedures and understand the many types of fire extinguishers and how to use them.

The Occupational Health & Safety Act of 2007's Legal Notice 59 on Fire Reduction regulations, which call for every workplace to have trained response teams and firefighting equipment, can be complied with in part by training fire marshals. These regulations also require that all response teams be updated on their training on a regular basis.

## WHO SHOULD ATTEND:

- Those responsible for overseeing Fire Safety
- Designated Fire Marshals
- Anyone who needs to know how to use a fire extinguisher

## REGISTRATION DETAILS

To register for the course, please visit MIOG website and fill the online application form.

### The Director

# UNDERSTANDING OIL AND GAS CONTRACTS

**Improving Efficiency, Efficacy and Economy in Mid and Downstream Petroleum Operations**

Effective management of mid and downstream petroleum operations requires thorough understanding of the various petroleum agreements such as the Transport and Storage, Interconnectivity, Commercial, Charter Party and Service Level Agreements as well as business processes involving receipt, transportation, and distribution of petroleum products to the end users. The knowledge is essential in enabling every party to meet its obligation with ease, for improved operations, hence increase profitability.

## Why You Should Attend

The 4-days flagship course, complete with a field visit to select Common User Petroleum facilities will enable participants to:

1. Develop core operational skills focusing on best practices.
2. Learn the requirements, obligations, opportunities, and risks associated with mid and downstream petroleum agreements.
3. Analyse and minimize risks, turn risks into opportunity, and manage uncertainty in petroleum operations.
4. Equip executives at all levels with skills in the petroleum sub sector
5. Strengthen stakeholder relationships.
6. Build ethical culture, establish acceptable standards of behaviour, and mitigate risks.

## The following areas will be covered:

1. Downstream Petroleum Agreements: Transportation & Storage Agreement for White Petroleum Products.
2. Procurement of Petroleum products: The Open Tender System and the Government-to-Government Contracts.
3. Petroleum Infrastructure Security and Right-of-Way Management
4. Pipeline Capacity Allocation, Receipt, Delivery & Product Scheduling
5. Collateral Finance Management, Tariffs, Billing, Ageing & Penalties
6. Storage, Stock Accounting/Control & Gain Loss
7. Product Quality, Additives & Blends and Quality Control
8. Safety Health & Environment Considerations and Emergency Response procedures in mid and downstream petroleum operations
9. A field visit to select Petroleum Common User facilities in the Coast Region

**This highly informative and interactive course is suitable for:**

1. Stock Accounting Managers
2. Legal Practitioners
3. Arbitrators, Judges and Magistrates
4. Finance Managers
5. Customer Service Managers,
6. Marketing Managers
7. Safety Health and Environment Staff
8. Quality Control Staff
9. In-House Legal Officers
10. EPRA Staff
11. Ministry of Energy and Petroleum Staff
12. Supply and Logistics Managers
13. Any other persons interested in petroleum management business.

**Duration: 4 days**

**Tuition Fees:**

**Kshs. 98,600/-**  
per person

# BASIC FIRE FIGHTING

## COURSE LEVEL I – IV

### INTRODUCTION

Round the world, frequent fire accidents and catastrophes wreak havoc on the environment, property, and human life. Often, poor and unprofessional response to fire situations results from a lack of knowledge and relevant skills in fire management. The American National Fire Protection Association (NFPA) standards are the foundation for this high-level training

### WHY TRAIN AT MIOG?

Live Fire and Rescue Training equipment, the only one of its kind in the region, is used. It can simulate different fire types, is environmentally friendly and gives students real life fire experience. A self-contained breathing apparatus filling station is further fitted for recharging used breathing apparatus

### WHO SHOULD ATTEND

1. New entrants to fire service;
2. Those charged with fire safety management in organisations e.g. institutions of learning, government institutions, Counties and private firms;
3. Persons already serving in a fire service.

**DURATION:** Each level ten (10) days

**VENUE:** Fire and Safety Training Centre, Eldoret.

### FEES

Level I-III - Kshs 85,750

Level IV - Kshs 94,351
